

5512.02 CYBER-BULLYING

Policy Statement

A safe and civil environment in school is necessary for students to learn and achieve high academic standards. Cyber-bullying by a student in the district directed toward another school district student or school staff member is conduct that disrupts both a student's ability to learn and a school's ability to educate its students in a safe environment.

The Board of Education prohibits acts of cyber-bullying by school district students through the use of any school district owned, operated, and supervised technologies. The Building Principal or designee may report allegations of cyber-bullying to law enforcement authorities.

Definitions

“Cyber-Bullying” is the use of electronic information and communication devices, to include but not be limited to, e-mail messages, instant messaging, text messaging, cellular telephone communications, internet blogs, internet chat rooms, internet postings, and defamatory websites, that:

1. Deliberately threatens, harasses, intimidates an individual or group of individuals; or
2. Places an individual in reasonable fear of harm to the individual or damage to the individual's property; or
3. Has the effect of substantially disrupting the orderly operation of the school; or
4. Violates NJSA 18A:37-13 through 17, Harassment, Intimidation & Bullying.

“School district owned, operated, or supervised technologies” is any computer, networking system, electronic equipment, or any other equipment or device that may be used by a person to communicate to another which is owned, leased, operated, or under the control or supervision of the school district and/or school district staff.

Reporting Procedure and Investigation

Any student or school staff member who believes he/she has or is being subjected to cyber-bullying, as well as any person who has reason to believe a student or school staff member has knowledge or reason to believe another student or school staff member is being subjected to or has been subjected to cyber-bullying shall immediately make a report to the Building Principal or designee.

The Building Principal or designee shall investigate all reports of such conduct. If the investigation results indicate cyber-bullying was not committed, the Building Principal or designee will inform the affected parties of the investigation results. In the event the investigation results indicate cyber-bullying was committed by a school district student on school grounds and/or using school district technologies, the student will be subjected to appropriate discipline.

In the event the investigation results indicate cyber-bullying was committed by a school district student using non-school district technologies away from school grounds, the Building Principal or designee may report the investigation results to local law enforcement. In addition, school authorities have the right to impose a consequence on a student for conduct away from school grounds, including on a school bus or at a school-sponsored function pursuant to N.J.A.C. 6A:16-7.6. This authority shall be exercised only when it is reasonably necessary for the student's physical or emotional safety, security, and well-being or for reasons relating to the safety, security, and well-being of other students, staff, or school grounds, pursuant to N.J.S.A. 18A:25-2 and 18A:37-2. This authority shall be exercised only when the conduct, which is the subject of the proposed consequence, materially and substantially interferes with the requirements of appropriate discipline in the operation of the school. Consequences shall be handled in accordance with Policy and

Regulation 5600, N.J.A.C. 6A:16-7.1, and as appropriate, in accordance with N.J.A.C. 6A:16-7-2, 6A:16-7.3, or 6A:16-7.5.

Any investigation regarding an allegation of cyber-bullying will provide all parties the appropriate due process rights, including the right to appeal the determination of the Building Principal or designee as outlined in Regulation 5512.

Discipline and Consequences

Some acts of cyber-bullying may be isolated incidents requiring the school district to respond appropriately to the individual committing the acts. Other acts may be so serious or part of a larger pattern of cyber-bullying that require a response either at the classroom, school building, or school district level or by law enforcement officials.

Consequences and appropriate remedial actions for students who commit an act of cyber-bullying range from positive behavioral interventions up to and including suspension or expulsion, as permitted under N.J.S.A. 18A:37-1, Discipline of Students, and NJSA 18A:37-13 through 17, and BOE Policy 5512. In addition, cyber-bullying using district technology violates Policy 2361 - Acceptable Use of Computer Network/Computer and Resources and subjects the student to discipline and sanctions of Policy and Regulation 2361.

Prevention and intervention techniques to prevent cyber-bullying and to support and protect victims shall include appropriate strategies and activities as determined by the Building Principal or designee.

Reprisal or Retaliation Prohibited

The school district prohibits reprisal or retaliation against any person who reports an act of cyber-bullying. The consequence and appropriate remedial action for a person who engages in reprisal or retaliation shall be determined by the Building Principal or designee after consideration of the nature and circumstances of the act, in accordance with case law, Federal and State statutes and regulations, and district policies and procedures.

Consequences for False Accusation

Consequences and appropriate remedial action for a student found to have falsely accused another of an act of cyber-bullying range from positive behavioral interventions up to and including suspension or expulsion, as permitted under N.J.S.A. 18A:37-1, Discipline of Students.

Consequences and appropriate remedial action for a school employee found to have falsely accused another of an act of cyber-bullying shall be disciplined in accordance with district policies and procedures.
